

**MATLAB Portal and Campus-Wide License - Institute of Technology Sligo (ITS)
Matlab Version R2021a.**

MATLAB Campus-Wide License

Institute of Technology Sligo (ITS) offers a campus-wide license for MATLAB, Simulink, and add-on products, on and off campus, on any device. These applications are essential tools for algorithm development, data analysis, modelling, and visualisation. The license includes access to MathWorks learning resources and self-paced online trainings to quickly develop your MATLAB and Simulink skills.

MATLAB and Simulink

MATLAB, the language of technical computing, is a programming environment for algorithm development, data analysis, visualization, and numeric computation.

Simulink is a graphical environment for simulation and Model-Based Design of multi-domain dynamic and embedded systems. MathWorks produces nearly 100 additional products for specialized tasks such as data analysis, image processing, computational finance, AI, and much more. These applications find use in engineering and science, business and economics, and computational finance, amongst others.

Campus-Wide License

ITS Sligo joins more than 2,019 universities worldwide using the Campus-Wide License. This increases the administrative efficiency of software management and distribution and ensures that a common set of tools is readily available for all students, educators, and researchers.

License installation

For instructions on downloading the software, as well as other resources, go to [ITS Sligo MATLAB Portal](#). To install and activate MATLAB on your device select "Sign in to get started" and proceed with the required steps using your university email address. For detailed instructions to make use of the license, you can click on the link "Need Installation Help?" (PDF) or watch a [video](#) to create your account.

Online training

After activating your account, you're good to go start using MATLAB. If you are new to the tool, learn the basics at the [Getting started with MATLAB](#) page.

Under the section "**Learn to Use MATLAB and Simulink**", the portal also provides access to a wide range of interactive [online courses](#) and [tutorials](#) on MATLAB, Simulink, deep learning, machine learning, computational math, and more.

At the end of each course, you can download and print a certificate of completion.

Additional resources

- [MATLAB Online](#): run MATLAB and Simulink on a web browser (ideal back-up solution in case you do not have with you your laptop with MATLAB installed on). Do not use this feature in combination with privacy-sensitive information.
- [MATLAB Grader](#): create an interactive class with MATLAB-based problems. This might become available in Canvas.
- [MATLAB Courseware](#): downloadable Course Materials Created by Educators from several universities.

1. Please click on Sign in to get started
2. Please use your **itsligo** email address and your **campus** password when login into MathWorks Edu Services Provider (see below)

Login to MathWorks Edu Service Provider

Don't Remember Login

Clear prior granting of permission for release of your information to this service.

LOGIN

3. Once logged in – you need to create a MathWorks account

To download MATLAB, a MathWorks Account is required.

MathWorks is pleased to provide a special license to you as a member of Institute of Technology Sligo. This license is intended to be used only for academic/course work and not for commercial purposes.

Sign in to your existing MathWorks Account

Sign In

Once you create an account with MATLAB the rest is self-explanatory.
