**Recommendations:**
- [Detailed recommendations as per the table.]

**Specialises:**
- Streams assessed more appropriately to their working so that the non-specialising programmes are more flexible, open, and competitive. Admissions and completion rates should be reviewed to ensure the assessment is sufficiently challenging. These will bring these was a recommendation to provide a common year and the efficiency of the module is only in its second year of transition from the programme.

**Programme Documentation:**
- [Programme documentation as mentioned in the table.]
